Technology Use

At OLMP, we strive to keep the use of technology for educational purposes while the students are in the classroom. With the evolution of technology and our schools 1:1 environment, we recognize the importance of the integration of technology for educational purposes dedicated to learning and instruction. Students are expected to follow proper etiquette in using cell phones and other electronic devices (see cell phone policy in the policy section of this handbook). The use of electronic devices that may disrupt the learning environment is prohibited.

Students will be responsible for adhering to regular rules of respect and courtesy as well as rules related to digital citizenship. Under the Freedom of Information and Privacy Act, ***it is against the law*** to take pictures, record or video other individuals without their consent. ***It is also against the law to take, possess, show or distribute inappropriate media of yourself or others at any time.*** The local police may be contacted if this occurs. All students and parents/guardians are required to sign the EICS technology use agreement on PowerSchool. This policy is in effect for all technology use within the school.

As an EICS school, OLMP has a One to One Technology Initiative. Students from grades 4-12 are invited to bring their own technology for use in their learning experience with the ultimate goal of supporting and engaging all students to achieve success in a 21st Century learning environment. Students will use devices responsibly, and only with the permission and direction of the teacher or other staff member.

Students should bring their devices to class with the following criteria:

- 6 hours of battery life
- Internet access (chrome browser preferred)
- Google apps for education downloaded
- Minimum screen size of 7 inches and physical keyboard

Student must adhere to the “responsible use agreement” and the “one to one user agreement” signed at the beginning of the year regarding appropriate technology use on PowerSchool.
